

Cisco ATA's

SPA 112 and 122

Configuration Guide

Find the IP Address

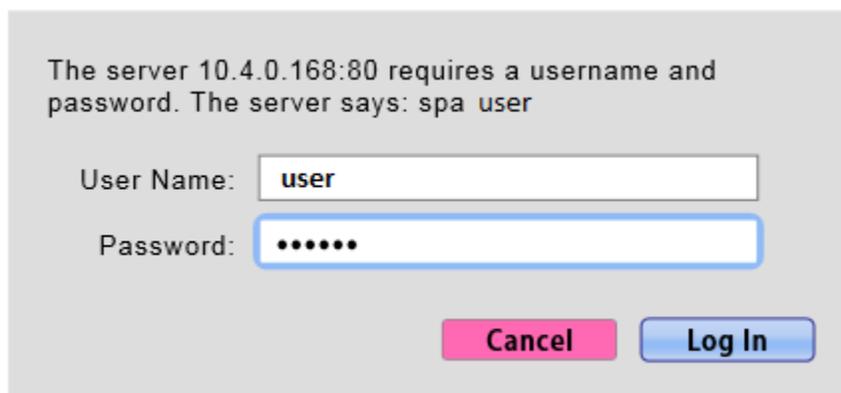

Quick Steps

1. Lift the handset of the phone connected to your ATA, Dial **** to initiate the IVR Menu
2. Wait to be instructed to enter your command.
3. Dial 110# and the IP address will be played to you

How To Set The Configuration

Quick Steps

1. Find the IP Address of the ATA device (above) and open a web browser to the IP address of the device.
2. Login with your ATA device user password.

A screenshot of a web browser login dialog box. The background is light grey. At the top, it says "The server 10.4.0.168:80 requires a username and password. The server says: spa user". Below this, there are two input fields. The first is labeled "User Name:" and contains the text "user". The second is labeled "Password:" and contains six black dots. At the bottom right, there are two buttons: a pink "Cancel" button and a blue "Log In" button.

The server 10.4.0.168:80 requires a username and password. The server says: spa user

User Name:

Password:

Quick Setup

Go to the Quick Setup and enter Line 1 details (without shown brackets):

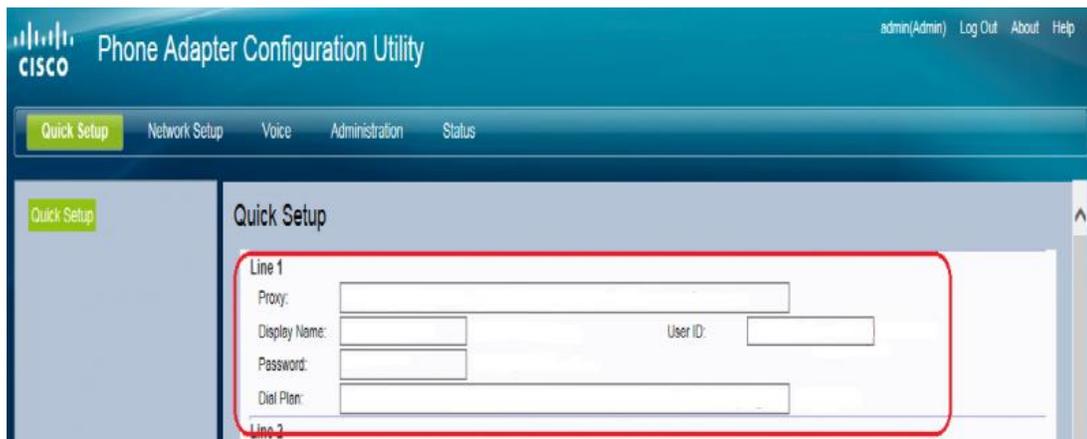

Proxy = sip1-on.vbuzzer.com

User ID = [your VBuzzer Account ID] (not your username)

Password = [your VBuzzer Account Password) (the long one)

Dial Plan =

(*xx.|**xx|[23456789]11|0|00|[2-9]xx[2-9]xxxxxxS0|1[2-9]xx[2-9]xxxxxxS0|011[2-9]xxxxxx.)

The screenshot shows the Cisco Phone Adapter Configuration Utility interface. The top navigation bar includes 'Quick Setup', 'Network Setup', 'Voice', 'Administration', and 'Status'. The 'Quick Setup' section is active, and the 'Line 1' configuration form is highlighted with a red box. The form fields are: Proxy, Display Name, Password, and Dial Plan. The 'User ID' field is also present but is not part of the red box. The 'Line 2' section is partially visible below.

Click Submit to save.
